TEHNIČKE PREDNOSTI TECHNICAL ADVANTAGES

BELI PROGRAM SET WHITE PROGRAM SET

BEZVIJČANA MONTAŽA
SCREWLESS INSTALLATION

Ugradnja pomoću stegača je brza i jednostavna zahvaljujući rešenju koje omogućava pritezanje stegačem sa vrlo malo okretaja izvijača i bez potrebe jačeg pritezanja vijka.

The installation by clamps is quick and simple thanks to the solution that provides tightening by clamps with a few screwdriver turnings only and without any necessity for stronger screw tightening.

VIJČANA MONTAŽA
INSTALLATION WITH SCREWS

Bezvičajani kontakti omogućavaju pouzdanu i brzu montažu do dva provodnika preseka 2,5mm², bez upotrebe alata za stezanje.

Screwless contacts are allowing safe and fast installation up to two conductors with diameter 2,5mm², without screwdriver.

Pritezanje provodnika obezbedeno je pouzdanom i sigurnom vijčanom vezom za provodnike preseka do 4 mm². Priključivanje provodnika je veoma brzo jer je obezbedeno njegovo postavljanje bez mogućnosti isklizavanja tokom pritezanja.

The tightening of conductors is provided by the reliable and safe screw joint for the conductors section to 4 mm². The connecting of conductors is very quick as their setting up is secured without any possibility of slipping out during tightening.

Priključnica je izrađena tako da zauzima veoma malo prostora u montažnoj kutiji čime se montaža pojednostavljuje zbog većeg prostora za smeštaj provodnika.

Socket outlet is made to take a very little space in installation box. Installation is simple because of enough space for conductors.

U ponudi programa EON izdvajamo setove proizvoda u beloj boji, dimenzija 80 x 80 mm (mehanizam + dekorativna maska).

Jednostavost forme i sjajni efekat bele boje čine ovaj set pogodnim za sve prostore.

EON program in white color, dimensions 80 x 80 mm, is produced as a set (product without decorative frame + decorative frame).

Simplicity of shape and glossy effect of white color makes this set suitable for all spaces.

CLASSIC

CLASSIC linija sastoji se iz tri osnovne boje: bela, crna i srebrna.

Boja dekorativnih maski prati boje mehanizama (tastera / bloka).

CLASSIC line consists of three basic colors: white, black and silver.

Color of decorative frames is the same as color of mechanisms (button / block).

Razigrane boje koje će veselo
razbuditi svaki prostor.

*Playful colors that will happily
wake up every space.*

Jednopolna sklopka ima dve izvedbe sklapanja (leva i desna) i u skladu s tim se povezuju priključni provodnici.
Single-pole switch is supplied in two wiring executions (left and right) and the conductors are connected accordingly.

Serijska sklopka
Serial switch

Dvopolna sklopka
Double-pole switch

Jednopolne indikatorske sklopke (indikacija svetli kada je sklopka uključena) za povezivanje zahtevaju nulti provodnik
Single-pole indication switches (indication turns on when the switch is on) require neutral conductor to be wired.

Naizmjenična sklopka, dve izvedbe sklapanja (leva i desna)
Two-way switch, two wiring executions (left and right)

Ukrsna sklopka se povezuje u kombinaciji sa naizmjeničnim sklopkama. Može se povezati neograničen broj ukrasnih sklopki u kombinaciji sa dve naizmjenične.
Intermediate switch is wired in combination with two-way switches. The unlimited number of intermediate switches may be wired in combination with two two-way switches.

Povezivanje regulatora jačine svetlosti sa naizmjeničnom sklopkom kao jednopolne sklopke i regulatora sa rotacionom jednopolnom sklopkom.
Wiring of dimmer with two-way switch as a single-pole switch and the dimmer with rotary single-pole switch.

Regulator jačine svetlosti sa naizmeničnom sklopkom može se povezivati i u kombinaciji sa naizmeničnom sklopkom za regulaciju sa jednog mesta i uključivanje i isključivanje sa dva mesta. Međusobno povezivanje više regulatora nije moguće.

Dimmer with two-way switch may be also wired in combination with two-way switch for the regulation from one place and switching on and off from two places. Inter-wiring of more regulators is not possible.

Kombinacijom regulatora sa naizmeničnom sklopkom i ukrsne i naizmenične sklopke omogućava se uključivanje i isključivanje sa prizvoljnim brojem mesta.

The combination of dimer with two-way switch and intermediate and two-way switch provides the switching on and off from the desirable number of places.

Antenski kabl za priključenje na antenske priključnice potrebno je pripremiti prema prikazanoj šemi da bi se postigao siguran kontakt, jednostavno postavljanje i onemogućio eventualni kratak spoj. For safe contact, simple installing and short-circuit disabling cable for aerial socket wiring must be prepared according showed scheme.

Pripremljen antenski kabl priključujemo pritezanjem u priključnu stezaljku i stezanjem oklopa kabla priteznom papučicom prema datim šemama. Prepared aerial cable may be installed into terminal and shield tightened by tightening clamp according showed scheme.
